# CORPORATE PLAN

## Our Vision

*A strong, friendly, innovative and sustainable business across Australia*

## Our Mission

*To drive safe, environmentally sustainable and high quality management of projects by empowering our stakeholders*

## Our Objectives

### Build an Innovative Team

UNOMS achieves this by:

- Employing people who choose to live in the NT
- Employing innovative thinkers
- Training our team in world's best practice
- Providing training and development for our team

### Safely Deliver Projects

UNOMS achieves this by:

- Developing safety systems
- Providing safety training to our team
- Monitoring safety statistics
- Monitoring and communicating NT safety incidents

### Provide Quality Services

UNOMS achieves this by:

- Developing quality systems
- Providing quality training to our team in all areas
- Monitoring quality incidents
- Implementing a quality review process
- Implementing Australian Standards
- Implementing World Best Practice

### Reduce Environment Footprint

UNOMS achieves this by:

- Developing quality systems
- Encouraging and implementing 3Rs waste management
- Monitoring paper usage
- Monitoring and communicating NT environmental incidents
- Providing environmental management training to our team

### Minimise Risk in Projects

UNOMS achieves this by:

- Developing risk management systems
- Developing, implementing and monitor our risk register
- Providing risk management training to our team

### Build a Sustainable Competitive Business

UNOMS achieves this by:

- Develop and implement a Communication and Marketing Plan
- Developing marketing documentation
- Developing and implementing a website
- Developing client contacts
- Providing quality services
- Ensuring all team members are accessible to our Clients

### Develop Community Benefits

UNOMS achieves this by:

- Communicating NT safety and environmental incidents to Contractors for continuous implement
- Developing and implementing Communication Plans on all projects
- Providing Volunteers for Greening Australia as part of our team training
- Developing relationships with Community groups

# BUSINESS DIVISIONS

## Engineering

We offer safe, environmentally sustainable, community benefiting, whole of life engineering solutions for large and small projects to meet Client needs.

Engineering services include: civil, mechanical, structural, electrical and environmental engineering; hydraulic assessments; detailed design; risk assessments and structural assessments.

## Design

UNOMS offer innovative fully detailed and design services for our Clients.

Design services include: design engineering; shop drawings; GIS; AutoCAD; CivilCAD; and 3DGoogle.

## Community Consultation and Engagement

We offer community engagement and consultation services which ensure all stakeholders are heard and assist in smoothing project implementation in communities throughout NT.

Services include: community engagement; community consultation; communication plans; stakeholder analysis; stakeholder management plans; social audits; workshop facilitation and documentation.

## System Management

UNOMS offer systems management for organizations and projects large and small to meet the needs of our Clients.

Services include system: management; design and auditing, for organisations and projects for best practice risk, safety, quality and environment management.

## Project Management

UNOMS offer project management for projects ranging from a few thousand to billion-dollar portfolios to meet the needs of our Clients.

Project services include: concept, design development and implementation; cradle-to-grave management; and design and implementation of PM systems, all in accordance with PMBOK.

## Sustainability

We offer environmentally sustainable, community benefiting, whole of life, environmental solutions for large and small projects to meet Client needs.

Sustainability services include: environmental management; EMPs; environmental engineering; audits; CERs; PERs; and sustainable development.

## Risk Management

UNOMS offer risk management for projects ranging from a few thousand to billion-dollar portfolios to meet the needs of our Clients.

Risk management services for: strategic planning; organisational management and project management that aligns with our Clients' goals and objectives.

## Safety Management

Safety management services for: strategic planning; organisational management and project management that align with our Clients' goals and objectives.

# PAST PERFORMANCE

Our track record in successful development, management and implementation of major projects across Australia includes projects and programs such as:

## Engineering and Design

- Indigenous Mothers Accommodation Facility
- Short Term Patient Facility at Royal Darwin Hospital
- Umbakumba Road Upgrade
- SouthPort Master Plan
- Wungong Urban Development
- Evansdale Cultural Precinct
- SIHIP Groote Eylandt
- Brisbane River Structural Stability Assessment
- Bungaroo Creek
- Oakajee to Tallering Peak Railway
- Warren River Catchment
- Maylands Clay Pits
- WSL Monazite Plant
- 80Ktpa Compressed Export Hay Plant
- Coralina Oil Platform
- Eneabba Cone Plant
- Leinster Modular Underground Ventilation /Escape Systems

## Project/Program/Portfolio Management

- Hinze Dam Stage 3
- Minim Cove
- Reform Program
- Yandicoogina Village
- SouthPort Master Plan
- Evansdale Cultural Precinct
- Jape Stage 6
- Tiger Brennan Drive
- Daly River Bridge
- Moyle River Floodway
- Tom Price Diversion
- Yandicoogina road and infrastructure
- GCCC EDMP Project Management System
- RioTinto Major Projects Trained

## Community Consultation and Engagement

- Hinze Dam Stage 3
- SouthPort Master Plan – Stage 1
- SIHIP Groote Eylandt
- Reform Program
- Evansdale Cultural Precinct
- Tiger Brennan Drive

## Environmental

- Perth City
- Northern Bypass
- SIHIP Groote Eylandt
- Hinze Dam Stage 3
- Minim Cove
- Development
- Lake Toolibin Bypass
- Bungaroo Creek Feasibility
- ERA Ranger Water Management
- Warren River Catchment

Created By UNO ARTS

## Risk and Safety Management

- Hinze Dam Stage 3
- Minim Cove
- Yandicoogina Village
- RioTinto GPO Audit Program Management
- Yandicoogina road and infrastructure
- Reform Program
- Incident Management
- GCCC EDMS Safety Management System
- Tom Price Safety Management System

## Mining

- Bungaroo Creek
- Feasibility
- ERA Ranger Water and Tailings Management
- WMC Tailings Dam
- Eneabba Cone Plant
- WMC Tailings Management
- Mt Todd Water and Tailings Management
- White Foil Hydraulic Design
- WSL Monazite Plant
- Leinster Modular Underground Ventilation /Escape Systems
- Yandicoogina Village
- Tom Price Diversion Drain
- Yandicoogina road and infrastructure
- Tom Price Safety Management System

## Government

- SouthPort Master Plan
- Evansdale Cultural Precinct
- SIHIP Groote Eylandt
- Brisbane River Structural Stability Assessment
- Warren River Catchment
- Tiger Brennan Drive
- Daly River Bridge
- Moyle River Floodway
- Hinze Dam Stage 3
- Minim Cove
- Reform Program

# AWARDS AND RECOGNITIONS

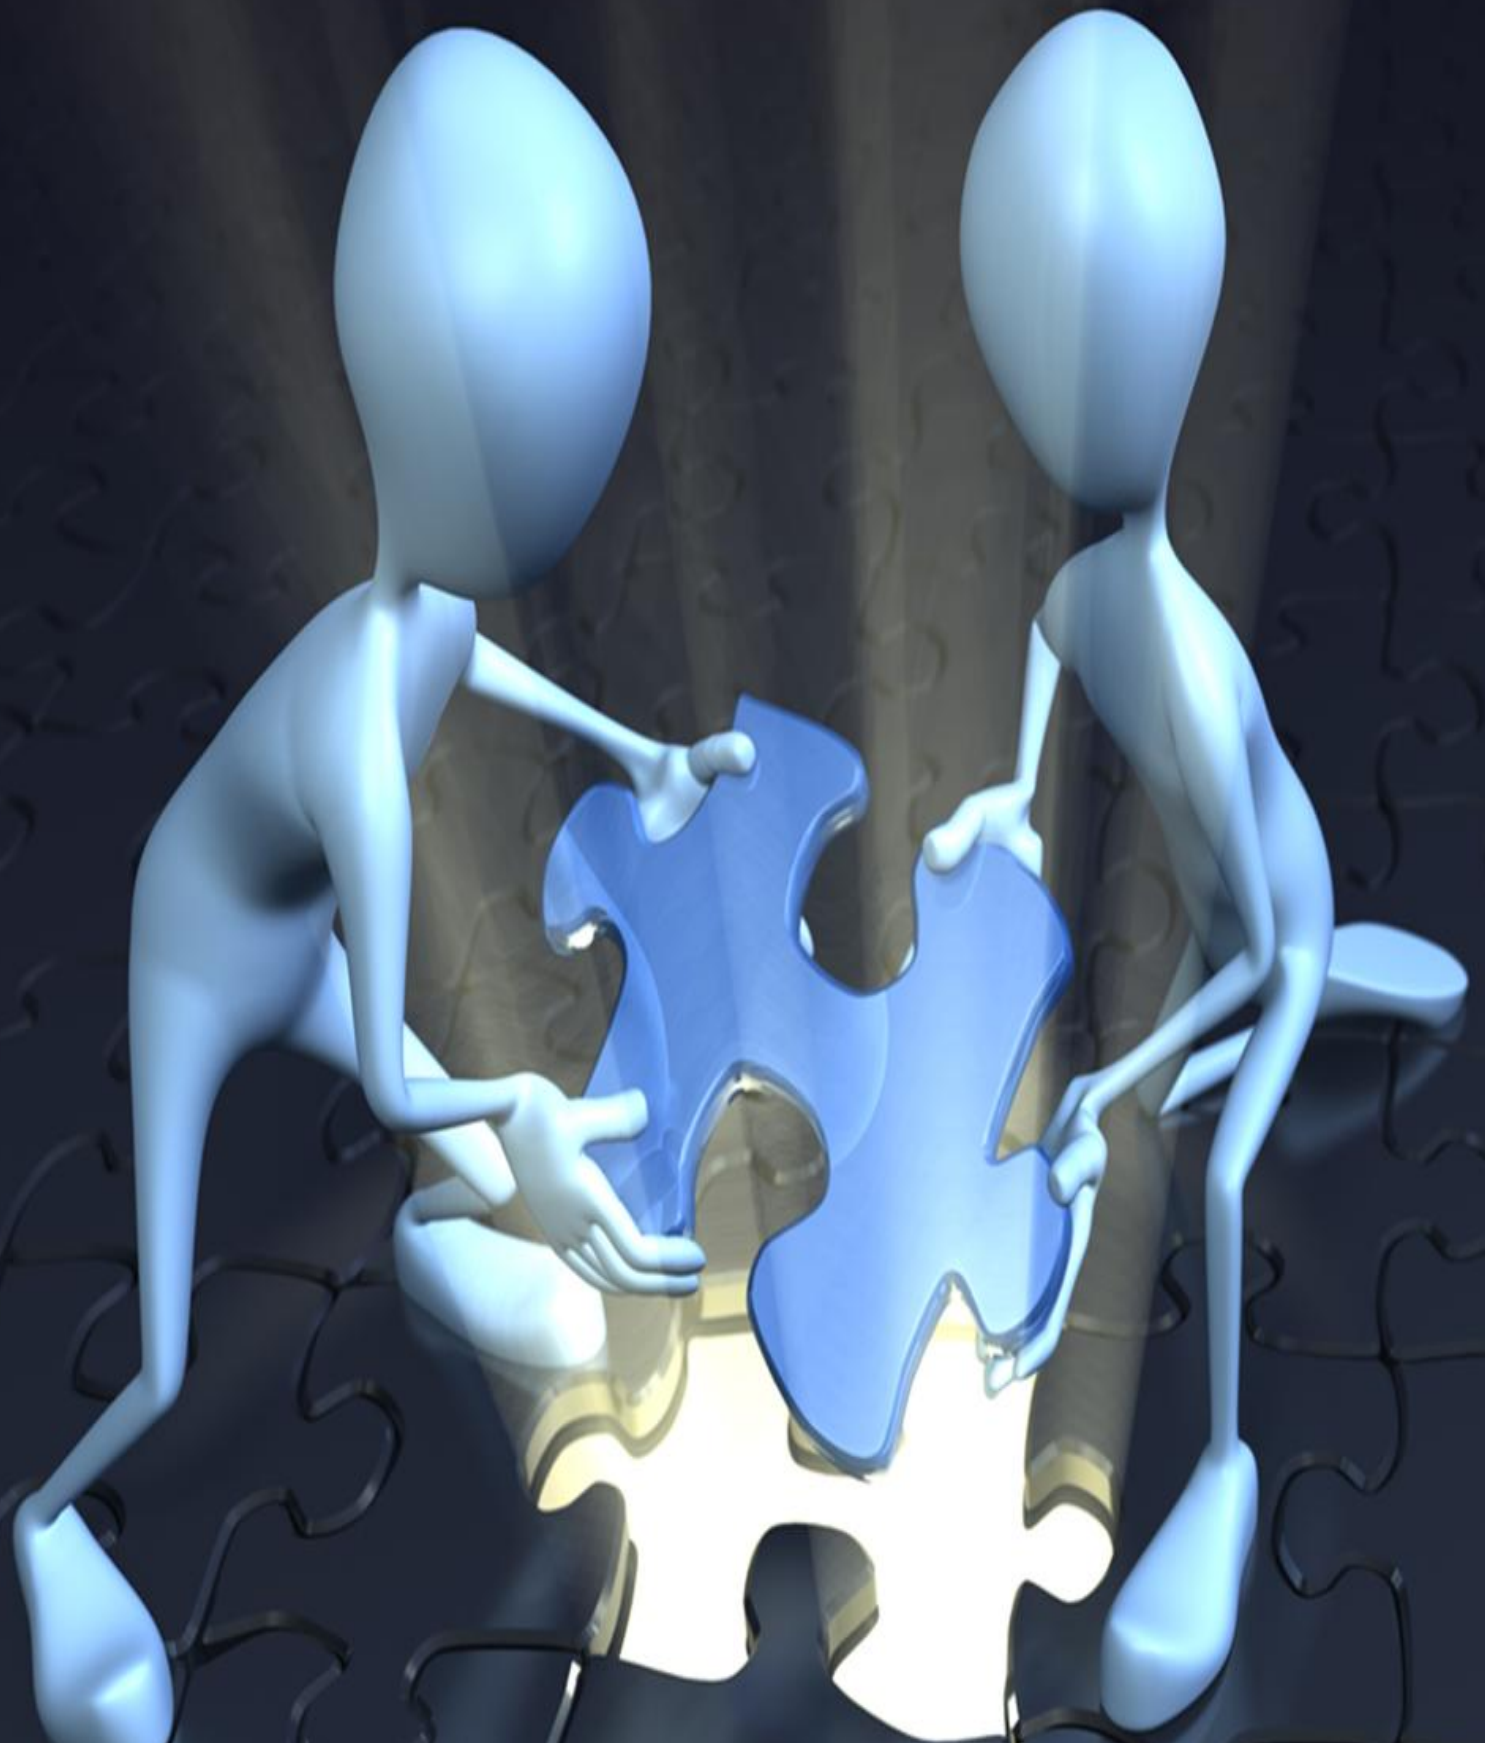

Our track record in successful development, management and implementation of major projects across Australia has been recognised by the following affiliations:

- Telstra Business Awards 2012 - Finalist in the HTC Start-up Category
- Engineers Australia 2012 – Finalist Documentation and Systems Category
- PowerWater Melaleuca Awards 2012 – Finalist Reuse, Recycle, Reduce Category
- Winner of the 2011 Master Builders Women in Construction Award
- Runner-up for the 2011 Engineering Australia Professional Engineer Award
- Engineers Australia 2011 – Finalist Documentation and Systems Category
- PowerWater Melaleuca Awards 2011 – Finalist Small Business Category

# AFFILIATIONS AND MEMBERSHIPS

In order to ensure we sustain our high level of safety, environment and quality management in our projects we ensure we are up to date with world's best practice by networks and empowering our people through professional development by:

- Attaining \$20M CAL Accreditation for Project Management
- Being a member of Engineers Australia
- Being a member of Project Management Institute of Australia
- Being a member of Master Builders
- Being a member of Chamber of Commerce
- Being members of Irrigation Australia
- Sponsoring the NT Sustainability Group
- Sitting on the Board of Engineers Australia NT
- Chairing the Sustainable Environmental Engineering Society Branch in the NT
- Chairing the Engineers Australia Environmental College NT Branch in the NT
