

SUSTAINABILITY POLICY

UNO Management Services Pty Ltd is committed to leading the industry in minimising the impact of its activities on the environment. This will be achieved by:

- Measuring our impact on the environment, setting targets for ongoing improvement and annually reviewing how we meet these targets with our stakeholders.
- Minimise energy and water usage in our buildings, vehicles and processes in order to minimise our consumption of natural resources, especially where they are non-renewable.
- Minimising toxic emissions through careful selection of our vehicles and encourage the use of alternative means of transport and car sharing as appropriate.
- Minimising waste by actively promoting recycling, reusing and reducing materials amongst our Team Members, Clients and Suppliers.
- Sourcing and promoting deliverables that minimise environmental impacts.
- Complying with or preferably exceeding the requirements of current relevant environmental legislation and codes of practice.
- Using an accredited program to offset the greenhouse gas emissions generated by our activities.
- Implementing a training program for Team Members to raise awareness of environmental issues and enlist their support in improving our performance.
