UNO MANAGEMENT SERVICES 2011 FINALIST

Thinking about ink

In its first six months of business, UNO MS used 60 cartridges to print its reports, letters, faxes and other documents.

As a small engineering and environmental company based on sustainability principles, it was important to find an alternative.

The UNO MS team now uses refillable ink cartridges, which means zero waste going to landfill. The ink is brought in bulk – in recyclable containers – which reduces costs as well as use of resources
